Subject: OGWG Review Begins Today (Sept 20 - Oct 1)
Attachments: WRAP_OGWG_2028_OTB_DraftReport_20Sep2019.pdf

OGWG,

The draft documents are now available for review of the Future Year OTB & OTW - Scenario 1, previously referred to as the Medium Scenario and now better described as "Continuation of Historical Trends". The Draft Report is attached. Due to file size limitations the Spreadsheet is not able to be distributed via email. Ramboll has placed the Spreadsheet file in the WRAP OGWG One Drive Folder ([spreadsheet](#)). The review period begins today September 20 and **comments are due no later than October 1**.

Please note that we are on a tight schedule to finalize this future year inventory and as a result it is critical to meet this review timeframe so that the Revised Draft Report, Spreadsheet, and SMOKE Inputs can be provided by the due date established for the WRAP Modeling as well as the 2016 National Platform Collaborative.

Status update presentations on WRAP OGWG 2019 teleconferences that included discussion of Future OTB and OTW medium scenario methods and status: Feb. 12, Apr. 9, Jun. 11, and Aug. 13. Please see the presentations by Ramboll as well as the Call Notes. www.wrapair2.org/ogwg.aspx As discussed in previous OGWG calls, the other two future year inventory scenarios will follow finalization of Scenario 1 "Continuation of Historical Trends".

Please submit comments no later than October 1 to Ramboll (John Grant and Amnon Bar-Ilan), Tom Moore, Amanda Brimmer, Mark Jones and I.

Thank You in advance for your review and comment on the Future Year OTB & OTW Continuation of Historic Trends Scenario.

Darla
